 Double Pass

Double pass radiators gain their efficiency by first passing the fluid over the top half of the radiator and then the bottom half, giving the radiator the ability to dissipate heat twice.

 22" X 19"
 Dirt Modified

Universal shaker screen can be mounted in front of the radiator on most dirt cars. Complete unit includes black power coated alloy frame, screen, cross rod, springs, & retaining clips. Frame dimensions are 17" tall & 25" wide. Cross rod is ½" diameter & 32" long.

Mud Screen

Radiator
 Clamp Mount

L/W billet alloy radiator mounting clamp eliminates welding brackets to the frame, fabricating mounts for the radiator, etc. Simply clamps to the side tanks of the radiator.
